Type approved by:

DNV-GL

Application:

Temporary Mooring

Manufactured & Tested: in Germany by Feubo

Material:

Forged Steel - Grade R4

Features:

Used to connect chain in Temporary Mooring
as defined in Offshore Standard DNV-GL-OS-E301

C-Links

MARC

Type Approved by DNV-GL

Offshore accessory to be used for Temporary Mooring as defined in DNVGL-OS-E301, Position Mooring

Hooks

KS Hook

Type approved by DNV-GL, ABS, Bureau Veritas

Offshore accessory to be used for Temporary, Mobile and Long Term Mooring

Hook No.	A	B	C	D	E	F	G	H	J	K	PL kN	MBL kN
40	135	334	162	646	225	250	200	130	200	1415	7095	9001
50	170	345	180	655	256	272	200	163	245	1410	10700	13573

Type approved by: DNV-GL, ABS (PDA), Bureau Veritas

Application: Temporary, Mobile and Long Term Mooring

Manufactured & Tested: in Germany by Feuero

Material: Forged Steel – R4

Features: Shall be fitted between two lengths of chain in a temporary or mobile mooring system, ROV operatable

Kenter Type Connection

NDur Link

DNV-GL Type Approved

Available with Fastlock and Taper Pin

Offshore accessory to be used for Temporary and Mobile Mooring

Type approved by:

DNV-GL

ABS will be available soon

Application:

Temporary and Mobile Mooring

Manufactured & Tested: in Germany by Feuero

Material:

Forged Steel - Grade R4, R4S, R5

Features:

Slim Kenter Shackle thickness is up to 1.3 x nom. chain dia.

Kenter Type Connection

NDur Anchor Shackle

*Offshore accessory to be used for Temporary and Mobile Mooring as defined in DNVGL-OS-E301
Position Mooring*

Type approved by: DNVGL /ABS approval in progress

Application: Temporary and Mobile Mooring

Manufactured & Tested: in Germany by Feubo

Material: Forged Steel - Grade R4, R4S, R5

Features: Non-Standard Kenter Shackles to connect mooring chains directly to anchors

Kenter Type Connection

Kenter Joining Shackle

Design according to ISO 1704

Offshore accessory to be used for Temporary and Mobile Mooring available with certification by DNV-GL

Standard Certification: available with DNV-GL, ABS, Lloyd's Register, Bureau Veritas

Application: for connection to mooring chain to Feubo Swivels, Shackles & Sockets
in a variety of configurations

Manufactured & Tested: in Germany by Feubo

Material: Forged Steel - Grade R3, R3S, R4

Features: Same outer length as chain of same diameter, easy to disassemble

Kenter Type Connection

Raptor Thin Shackle Fastlock

DNV-GL Type Approved

Type approved by:

DNV-GL

Application:

Temporary and Mobile Mooring

Manufactured & Tested: in Germany by Feuero

Material:

Forged Steel - Grade R4, R4S, R5

Features:

Slim Kenter Shackle thickness is up to 1.3 x nom. chain dia.

Kenter Type Connection

Raptor Anchor Shackle

DNV-GL Type Approved

Offshore accessory to be used for Temporary and Mobile Mooring as defined in DNV-OS-E301, Position Mooring

Type approved by:

DNV-GL

Application:

Temporary and Mobile Mooring

Manufactured & Tested: in Germany by Feuobo

Material:

Forged Steel - Grade R4, R4S, R5

Features:

Slim Kenter Shackle thickness is up to 1.3 x nom. chain dia.

Kenter Type Connection

Trident Anchor Shackle

Application: Long Term Mooring for 25 years design life

Manufactured & Tested: in Germany by Feubo

Material: Forged Steel - Grade R4, R4S, R5

Features: Used to connect common links/enlarged links/ end links of SLAC and studless chain

Type Approval by:

DNV-GL for 31 - 130 mm

Application:

Temporary, Mobile and Long Term Mooring

Manufactured & Tested:

in Germany by Feuobo

Material:

Cast Steel – Grade R3, R4

Features:

installation on all vessels classed by DNV GL

Sockets

Closed Spelter Socket

Type Approved by ABS

For use on an ABS classed vessel, MODU or facility

As defined in 2009 ABS guide for Certification of Offshore Mooring Chain (updated 10 February 2014)

Type Approval by: DNV, Lloyd´s Register, Bureau Veritas
 Application: To be used as connection link between anchors and corresponding anchor chains
 Manufactured & Tested: in Germany by Feuobo
 Material: Forged / Cast Steel
 Features: Anchor chain accessory in Grade 2,3

Swivels

Nautilus Swivel

Type Approved by ABS

For use on an ABS classed vessel, MODU or facility

As defined in 2009 ABS guide for Certification of Offshore Mooring Chain (updated 10 February 2014)

Nautilus	chain dia.	A	B	C	D	E	F	PL kN	MBL kN
450-600 to	70-76	135	145	967	77	88	320	4731	6022
850 to	84-89	140	145	920	84	93	360	6602	8418
1000 to	95-102	180	160	1009	100	110	400	8246	10512

Type Approval Design Assessment (PDA) by:

Application:

Manufactured & Tested:

Material:

Features:

ABS for 70 – 102 mm

Temporary and Mobile Mooring

in Germany by Feubo

Forged Steel – Grade R4, R5

Slide bearings, Roller bearings

Swivels

Superbox Swivel

DNV-GL Type Approved

Offshore accessory to be used for Temporary and Mobile Mooring as defined in DNV-OS-E301, Position Mooring

chain dia.	A	B	C	D	E	F	G	H	I	J
70-76,2	168	337	229	107	261	118	940	130	107	220
82,5-89	196	393	267	125	304	138	1097	151	125	257
94-102	224	451	306	144	349	158	1258	173	143	295
108-114	251	504	342	161	390	177	1406	194	160	329
117-124	273	548	372	175	424	192	1529	211	174	358
126-132	290	583	396	186	451	205	1628	224	185	381

Type approved by: DNV
 Application: Temporary and Mobile Mooring
 Manufactured & Tested: in Germany by Feuobo
 Material: Cast Steel - Grade R3, R3S, R4
 Forged Steel - Grade R4S, R5

Swivels

Type K Swivel

Anchor chain accessory

chain dia.	A	B	C	D	E	F	G	H	J	K	L
d	5 x d	2,2 x d	1,4 x d	4 x d	1,4 x d	1,8 x d	3,15 x d	1,7 x d	9,2 x d	2,8 x d	3,4 x d

Application: To be used as connection link between anchors and corresponding anchor chains

Manufactured & Tested: in Germany by Feuubo

Material: Cast Steel

Features: Anchor chain accessory for grade 2 or 3

Mooring Bridle

Mooring Bridle

Dimensions to be agreed with Customer

Application: Mooring

Manufactured & Tested: in Germany by Feubo

Material: Forged Steel – Grade 3 - R4

FEUBO Innovation

Made in Germany

The strongest link
in your supply chain. FEUBO.

Testing facilities

Strain gauge measurements

We perform strain gauge measurements during static or dynamic loading. Readings up to 16 measurement points can be recorded simultaneously.

Equipment:

- Strain gauges (350 Ohm of different configurations) for unidirectional and multi-directional measurements
- Data acquisition system synchronised with loading

Fatigue testing

Since 2015 we have been able to perform fatigue testing of mooring chain and components.

Equipment:

- Dynamic testing machine
- Loading capacity 700 tons (7000 kN)
- Test frequencies 0.3 - 1 Hz
- Testing in air at ambient temperature
- Testing in sea water is available beginning 2016
- Testing at low temperatures down to -60°

Proof & Breaking Load Testing

Since 2007 we have been testing our components using our own on-site testing machine. Along with usual proofload and breaking load tests we also perform testing according to customer specifications.

Equipment:

- Static tension machine
- loading capacity 2,000 tons (20,000 kN)
- Calibration certificates by MPA
- Certification by LR
- Testing at low temperatures down to -60°

Non-Destructive Testing

- We perform ultrasonic and magnetic particle inspections on a daily basis using the most modern equipment.
- Our NDT procedures are approved and conform with standards of class societies.
- Our Level 2 and Level 3 personnel is able to perform NDT of cast and forged material in a wide range of sizes.

Our Certifications

Type Approvals

Feubo is committed to achieve the highest quality standards in design, manufacturing, inspection and testing.

Our products are available with a wide range of certification options. We are approved as a manufacturer of mooring

accessories by all relevant classification societies such as **DNV-GL, ABS, Lloyd's Register** and **Bureau Veritas**.
